40 NATIONS DISCUSS THE FUTURE OF BUILDING IN VIENNA

2-day international building conference - for the 5th time in Vienna, Austria

ADVANTAGE AUSTRIA and its partners are pleased to invite you to the international building conference "Future of Building" on May 8th and 9th, 2018 at the Austrian Federal Economic Chamber.

The conference takes place in Vienna - example of global best practice for Smart City solutions and the symbiosis of historical heritage and modern (green) architecture and high tech solutions.

The 1,200 visitors and a record number of 2,500 b2b meetings demonstrate the success of the "Future of Building" conference.

What makes this conference special?

Explore your export opportunities and business cases. Attend this event and gain new perspectives on the latest developments in the building and construction sector. „Future of Building“ conference is a strong platform to boost the internationalization of the Austrian building and construction sector. This global focus makes this event unique.

One conference - many advantages

You will have access to information about recent trends and developments in the Austrian and international building sector. The main conference language is English. We will bring interested partners from all around the world to Vienna to explore new partnership and business opportunities with you.

40 nations explore the future of the building sector

With the ADVANTAGE AUSTRIA network and its partners, we bring 200 foreign companies and experts from more than 40 nations to the conference in Vienna.

Innovative solutions and future trends

Presentations and discussions about „Future of Building“ on the international level will be conducted. Think outside the box - and join our innovation work-shops! Experience the latest technologies, share project ideas for sustainable construction, high-quality buildings and find new cooperation partners.

„Building-EXPO“ trade show - Austria's impressive projects, products and innovation

Experience the latest technologies, share project ideas and find new cooperation partners. Up to 60 Austrian companies and research institutes from the fields of engineering and construction, timber construction, building materials, building technology sector, interior construction, BIM, home automation, etc. will present patents, products and projects at the exhibition.

600 b2b meetings

Upload your company's profile and start booking individual b2b meetings with international guests.

Project visits in Vienna and the surrounding area

Participate in our site visits (9.5.2018) and see outstanding Austrian building projects, solutions and manufacturers of building materials etc. in the Vienna area.
